We are excited to invite the HCA Community of Practice to join us online for the HCA 2020 Community of Practice Meeting. Whether you are faculty, student, staff, admin, a community partner in post-secondary mental health, or brand new to HCA, you are welcome to join us!

WHAT IS A COP MEETING?

A gauge of resonance, a community of practice meeting provides an opportunity to learn about the direction of the community of practice and to influence and impact future priorities.

This year's meeting will be a space for the community of practice to share perspectives, identify priorities, and engage in collaborative problem-solving in order to build our collective capacity and inform the direction of Healthy Campus Alberta.
